NINETY-EIGHT REGENCY BROUGHAM SEDAN

Not all cars would feel comfortable in a setting like this. But this one is right at home. Sleek. Sophisticated. Self-assured.

Ninety-Eight Regency Brougham Sedan.

Beneath all the luxury, the kind of logic that makes it all the more enjoyable. Ninety-Eight Regency owners did not get where they are today by making rash decisions. They look long and hard to ensure they are getting full value for their investment.

For example, Brougham interiors like this. If you like your luxury on the gener-

ous side, you'll be right at home. In style.

Then, all those standard features, Regency pampers you hand and foot with everything from power door locks to cornering lamps, air conditioning to automatic transmission to trip odometer. To name only a few.

Ride is also important. A boulevard ride even when you're not on a boulevard. It's a result of Pliacel shock

absorbers, computer-selected springs, full coil suspension front and rear.

A 5.0 litre V8 is teamed with 4-speed overdrive automatic transmission. And a 5.7 litre Diesel V8 is available. A torque converter clutch for more efficient transfer of power at highway speeds is also standard.

Ninety-Eight Regency. For logic as well as luxury, it's right at home.

You appreciate what it takes to create something which combines both logic and luxury. With this one you feel right at home. It's the "thinking man's luxury car". On the one hand, there are those sleek, sweeping lines. On the other, a surprisingly moderate price. There are the stunning loose-pillow-look velour interiors. In short, Regency gives you the best of everything. And the best is just what you deserve.

NINETY-EIGHT REGENCY COUPE

NINETY-EIGHT REGENCY SEDAN

Certain streets have a certain flair. So do certain cars. Like this one. It's right at home with the chic and the elegant. Regency style, Regency luxury, Regency comfort and ride in the 4-door version. They go hand in hand with Regency's reputation for economy, modest cost and solid resale value. Perhaps that's why Regency's share of sales continues to grow at such a dramatic rate. Everything considered, it's only logical with this kind of luxury car.
