A ROAD WORTH TRAVELING.

EVERY 1999 OLDSMOBILE WAS CREATED TO AWAKEN YOUR JOY OF DRIVING. AND INSTILL A SENSE OF ASSURANCE THAT MAKES YOU FEEL THAT ANY ROAD IS A ROAD WORTH TRAVELING. THANKS TO INNOVATIVE DESIGN AND ENGINEERING, OLDSMOBILE NOW PRESENTS A COMPLETE PORTFOLIO OF VEHICLES, ALL AIMED AT ENHANCING YOUR ON-ROAD EXPERIENCE. EVERY MODEL SURROUNDS YOU WITH SOPHISTICATION AND REFINEMENT, INSPIRES A NEW LEVEL OF DRIVING CONFIDENCE AND CONTROL. WITH HARMONIOUS INTERIORS, CLEAN, SOPHISTICATED STYLING, AND SMOOTH, AGILE PERFORMANCE. WHEN WAS THE LAST TIME A CAR FELT SO RIGHT — AND YOU FELT SO CONNECTED TO THE ROAD? THINK ABOUT IT. YOU'RE THINKING OLDSMOBILE.

A faded, light blue background image showing several people in motion, appearing to be playing sports like basketball or volleyball. The figures are out of focus and have a soft, ethereal quality.

STOP EXISTING. START LIVING.

1999 ALERO It's that simple. If you want to be out in front where the view is better, you've got to carve your own path through life. And to make the journey with the utmost confidence, think Alero. It's engineered to help keep you glued to the road, with handling that's crisp and nimble. Which makes Alero uncommonly fun to drive. And, with its roomy 5-passenger cabin, refreshing versatility and array of safety features, Alero is the freedom machine that goes way beyond functional. We know you have to drive every day. But who says you have to do it in an everyday car?

Alero GLS Coupe in Black Onyx.

START

THIS

1999 ALERO

Driving is an activity that should be done for the fun of it, even if you're going nowhere in particular. It's easy in Alero's relaxed and stress-free atmosphere. The light and airy passenger cabin, with its two-tone color scheme and expansive glass area, opens the space and lets in the sun. And when Alero hits the curves, the fun really starts. This is when the Active Response System does its best work, with 16 features working together to help you feel more connected to the road. Add a responsive engine that's as smooth as a whipped cream water slide, and Alero's message to you is crystal clear. Stop commuting. Start driving.

Driving is more fun when you're backed by the confidence of standard safety and security features like all-speed traction control, 4-wheel antilock disc brakes, a theft-deterrent system, battery-rundown protection and a rigid safety-cage construction with front and rear crush zones. It's a combination you won't find standard on most competitive vehicles.

Alero's spacious interior combines sweeping contours with the comfort of leather-trimmed seats, available in GL models and standard in GLS.

IT DOESN'T JUST HUG THE ROAD. IT SEDUCES IT.

1999 INTRIGUE One look at Intrigue tells you this is a car that turns heads as well as it turns corners. Its jewel-like headlamps and sculpted contours whisper sophistication. But underneath its sleek body, its soul yearns for pure driving pleasure. Got a twist you're trying to straighten? The precision tools you need are all here: a rigid body structure, large 4-wheel disc antilock brakes, a patented magnetic variable-assist steering system, available traction control, and an agile suspension designed exclusively for Intrigue. Perhaps this explains why *Automobile Magazine* said, "We found ourselves leaning on Intrigue in the corners as if it were a BMW or Mercedes." Maybe. Or maybe it's what's under the hood.

Intrigue GL in Bronze Mist.

Intrigue GL with leather-trimmed seating in Neutral. Shown with available equipment.

1999 INTRIGUE

Slip inside, and you'll soon understand why we say Intrigue is a sophisticated twist on a sports sedan. Start the engine, and you'll hear the free-revving sounds of state-of-the-art technology and meticulous craftsmanship. For 1999, Intrigue is available with a new 3.5-liter twin-cam V6 engine that delivers the responsive rush of 215 horsepower when you need it most — on the highway. Designed and tuned exclusively for Intrigue, this innovative powerplant was derived from Aurora V8 technology and benefited from the most extensive computer testing in our history. The result? An aluminum construction that translates directly into smooth precision and enhanced driving confidence.

It comfortably seats five, but Intrigue was designed around you — the driver. The instrument panel arcs gracefully to present gauges and controls. Comfortable, supportive seats and the sensuous feel of available leather trim invite you to tune your senses to the spirit of the road.

Twin-tube struts with 4-stage valving were engineered exclusively for Intrigue. They provide precise control and quick response.

Intrigue's available new 3.5L twin-cam V6 serves up responsive power at all speeds, and its 230 lb-ft of torque offers more punch than any competitive DOHC V6 engine in the class.*

*Based on 1998 Model Year competitive vehicles.

A PERSONALITY AS UNIQUE AS ITS DRIVER.

1999 AURORA Think of Aurora as the luxury car that's as much of an individual as you are.

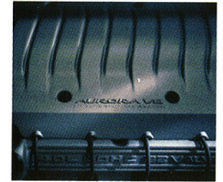

Just like all individuals, Aurora has its own unique DNA. And just like you, it has its own personal interpretation of luxury. Its bold styling doesn't rely on outdated preconceptions or borrowed philosophies. It's a fresh look at luxury and a novel interpretation of performance. You could define it as luxury without the stuffy tradition. And performance with passion — but without the melodrama. Frankly, we didn't create Aurora to please everyone. But if you're ready to go your own way, it may be the perfect luxury car for you.

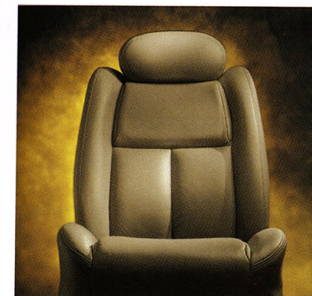

1999 AURORA

Aurora carries its elegance with an easy grace. It doesn't overstate its case with upright hood emblems or faux grilles that serve no function. Instead, you'll find sophisticated design that brings the exterior and interior into harmony. A powertrain that combines smoothness and power in equal measure. And a cabin so well tailored in leather and burled walnut trim, and so fully equipped, that only a handful of options are available. Beyond the wealth of features and the advanced engineering you'll find in every component, Aurora provides you with something else. An undeniable sense of gratification you'll feel knowing that you're not following the herd instinct.

Aurora's DOHC V8 engine is as smooth as it is powerful. Its 250 horsepower is unleashed at the slightest encouragement from the driver. And with 90 percent of peak torque available from 1200 to 5600 rpm, the engine instantly comes alive for passing maneuvers or confidently taking a steep hill in stride.

Relentless research has yielded what might be the industry's most comfortable seat. It features a standard 8-way power adjustment, and the driver's seat memory function can store and recall two different seat and outside mirror settings at the touch of a button.

SO WELL EQUIPPED, IT'S AMAZING EVERYTHING FITS.

1999 CUTLASS When we designed Cutlass, we set out to create the most user-friendly sedan on the market. Like building the proverbial ship in the bottle, we managed, through meticulous engineering and well-thought-out design, to create a highly detailed and extremely comfortable interior within the confines of the body. Slide into the driver's seat — or any of the five comfortable spots inside — and you'll probably have the same reaction you did when you first saw a ship in a bottle. How did they do that? The answer is: very carefully. One component at a time. And the result is a functional yet refined sedan that makes life behind the wheel just a little more enjoyable.

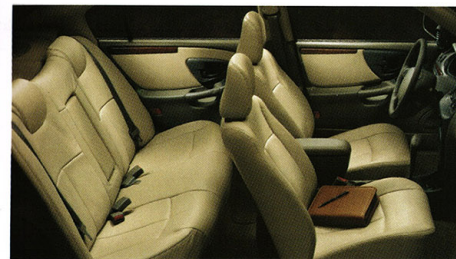

Cutlass GLS in Bronze Mist. Shown with available Gold Package.

1999 CUTLASS

Are you a big picture person? Or the detail-oriented type? Either way, Cutlass has you covered. With features like a responsive V6 engine, 4-speed automatic transmission and 4-wheel antilock brakes — all standard, so you don't have to pay extra. In the GLS, there's even the luxury of leather trim, a 6-way power driver's seat and remote-control keyless entry. As for details, you'll be amazed at the clever thinking that went into Cutlass. From something as simple as putting cruise control functions right on the steering wheel, to offering a built-in pen holder in the center console. We even thought of putting a cupholder in the typically under-utilized space to the left of the steering wheel. Now that's clever.

Designed for 5-passenger comfort, Cutlass offers an efficient interior with an abundance of clever details, like the ergonomically angled shifter and accessible dash-mounted ignition. Cutlass adds one more feature to make life a little more luxurious: standard leather-trimmed seats in the GLS model.

Powerful and efficient, the standard 3100 SFI V6 engine is a model of smoothness and refinement.

Cutlass' split-folding rear seats with a trunk pass-through make it easy to carry longer items and still comfortably accommodate a rear passenger.

ENDURING VISION STANDS THE TEST OF TIME.

1999 EIGHTY EIGHT and LSS In 1949, Oldsmobile launched a rocket. Called the Eighty Eight, it was an automobile that single-handedly set new benchmarks for style and performance. Five decades of innovation later, the Eighty Eight remains true to its roots, offering enduring design, proven performance and lasting value. For 1999, Oldsmobile is proud to offer its impressive full-size sedans: the refined and spacious Eighty Eight, the new fully equipped 50th Anniversary Edition Eighty Eight, and the performance-oriented LSS. All three models are thoroughly modern expressions of classic automotive value.

EST. 1949

Eighty Eight in Champagne.

Eighty Eight with cloth-trimmed seating in Neutral.

1999 EIGHTY EIGHT

Eighty Eight's time-tested quality and value offer lasting appeal. With sound engineering that can be described in one word — dependable. A pretty powerful word when you consider it's backed by the sure-footed stability of front-wheel drive, the directional control of 4-wheel antilock brakes, and the smooth ride of a 4-wheel independent suspension. Inside Eighty Eight, you'll find spacious seating for six and easy-to-use controls, as well as standard amenities like air conditioning, power accessories and a Dimensional Sound audio system. Continually improved upon within a strict criterion of quality, Eighty Eight remains the standard for exceptional value in full-size sedans.

Eighty Eight features a divided-bench front seat and stretch-out seating for six. The LS model offers the comfort of standard front bucket seats with an integrated center storage console, and the luxury of available leather trim.

Eighty Eight has been honored with a *Consumers Digest* full-size "Best Buy" award for eight years in a row.*

Standard power window and door lock controls are conveniently close at hand. Power outside mirrors are standard on Eighty Eight LS.

*The Best Buy emblem is a registered trademark of Consumers Digest Inc., used under license.

50th Anniversary Edition Eighty Eight in Black Onyx.

50TH ANNIVERSARY EDITION EIGHTY EIGHT

This year marks the 50th year Eighty Eight has been on the road, and Oldsmobile commemorates this special occasion with the ultimate in grace and comfort — the 50th Anniversary Edition Eighty Eight. To honor a history of fine craftsmanship, it includes many choice standard features, such as: leather-trimmed seating, CD/cassette combination stereo, 8-way power front seats with driver's-side dual memory controls and dual-zone climate control. This exceptional, fully equipped model exemplifies a tradition of timeless, straightforward design that has long been an Eighty Eight standard.

Inside the quiet, leather-trimmed cabin, you'll find roomy seating for six passengers, plus an array of conveniences and amenities. Exterior gold trim, 16-inch aluminum wheels and remote-control keyless entry with illumination and personalization features further distinguish this commemorative Eighty Eight model.

Oldsmobile's 50th Anniversary Edition Eighty Eight is the embodiment of five decades of full-size sedan luxury.

Steering wheel audio and climate touch controls help keep your eyes on the road and your hands on the wheel, for convenience as well as safety.

LSS in Black Onyx.

1999 LSS

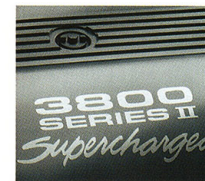

You've paid your dues. Now you're ready for a dose of sophisticated sporting style — without forgoing full-size comfort. And with LSS, it starts with performance. Press the throttle and the powerful 205-hp 3800 Series II V6 engine responds with smooth, robust acceleration. The Magnasteer speed-sensitive variable-assist steering system and a sport-tuned suspension offer precise steering and crisp handling. And you'll enjoy the agile ride in the comfort of a spacious cabin with ergonomically designed seating and sleek styling. So, are you starting to forget about all those dues you've paid? We thought you would.

Sit in the sculpted front bucket seats and experience the commanding comfort of support. With gauges front and center, shifter close at hand and the luxury of a leather-wrapped steering wheel, you're ready to appreciate the performance that is about to start.

The standard AM/FM stereo with CD/cassette player combination provides concert-hall richness.

Interested in the ultimate expression of LSS? Then make sure it's supercharged. This available 240-hp V6 offers exhilarating performance that makes the most of LSS' sport-tuned independent suspension.

THE ULTIMATE IN PERSONAL PREFERENCE.

1999 SILHOUETTE Wouldn't life be simpler if everybody liked the same color? Instead, we all want things rendered in our own hues. Fortunately, Silhouette is a minivan that understands all this. It has the ability to please all of its passengers, no matter what their preferences. And an abundance of comforts and conveniences to accommodate your lifestyle. Available features like individualized second-row captain's chairs, rear climate and audio controls, and the first factory-installed video entertainment system, help to ensure everyone is taken care of. So no matter where you go, you can paint your world exactly the way you wish.

Silhouette GLS with leather-trimmed seating in Beige.

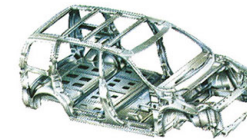

Silhouette Premiere video entertainment system.

1999 SILHOUETTE

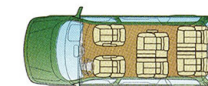

Silhouette supplies the features that satisfy everyone's needs. Like standard dual sliding side doors, an available passenger-side power sliding door, and enough built-in flexibility to accommodate whatever life brings your way. And for the ultimate in personal attention, consider the new Silhouette Premiere. It's the first vehicle of its kind to feature an integrated video entertainment system,* complete with an LCD color monitor for viewing by rear-seat passengers. This unique minivan gives motion pictures a whole new meaning. It's further proof that Silhouette ensures that passengers not only get where they're going in comfort, but enjoy the time spent along the way.

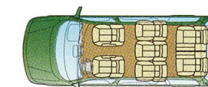

Silhouette's dual sliding doors make it easy to load up the family and go. The available power passenger-side sliding door opens at the touch of a button, so even with arms full, getting everyone's gear on board is a breeze.

Safety starts with a rigid body structure. Silhouette offers "safety-cage" construction, plus front and rear crush zones designed to help protect occupants in the event of a collision. Front seat side-impact air bags offer added security and peace of mind.**

Standard 7-passenger seating

Available 8-passenger seating

Available 7-passenger seating with captain's chairs

*Factory installed. May not be available in all states. See your dealer for details.

**Always use safety belts and proper child restraints, even with air bags. Children are safer when properly secured in a rear seat.

AUTOMATIC TRACTION AND FULL-TIME COMFORT.

1999 BRAVADA When you slide behind the wheel for a trip across town or across the state, you never know what to expect. A change in road conditions can turn a simple drive into a challenge. Bravada's automatic SmartTrak system was designed to help you handle the unexpected. SmartTrak operates in 2-wheel drive under normal driving conditions. But when it senses wheelspin, it engages all-wheel drive within $\frac{1}{4}$ of a second to direct the right amount of power to the wheels with the most traction. When slippage is no longer detected, SmartTrak returns to 2-wheel drive. But while all-wheel drive engages only when necessary, Bravada's comfortable, leather-trimmed interior and carlike ride and handling are with you all the time. They offer a level of attention you might only expect in a premium luxury sedan.

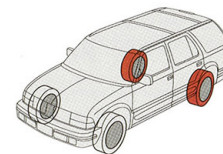

Bravada in Pewter. Shown with available equipment.

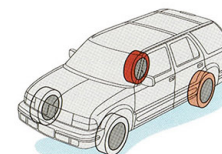

Bravada with leather-trimmed seating in Beige.

1999 BRAVADA

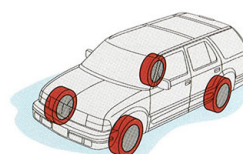

Bravada is one sport utility vehicle that even luxury sedans might envy. Its spacious cabin offers stretch-out comfort along with a number of standard features including: leather-trimmed seating, an 8-way power driver's seat, power front-seat lumbar supports, automatic electronic climate control and 6-speaker CD/cassette combination stereo. And to complement these conveniences, Bravada also features a functional overhead console with an electronic compass, trip computer, outside temperature readout, front and rear reading lamps, and a HomeLink® Universal Transmitter. Bravada's well-designed suspension provides easy handling and a refined ride that will assuredly make premium sedans sit up and take notice.

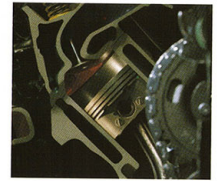

Normal Driving Conditions
2-Wheel Drive

Side-to-side Slippage
2-Wheel Drive

Front-to-rear Slippage
All-wheel Drive

Bravada's muscular 4.3-liter Vortec V6 offers smooth running, 190-hp performance for effortless city driving or highway cruising. Its 250 lb-ft of torque provides plenty of confidence on uphill grades.

SmartTrak operates in 2-wheel drive under normal driving conditions. When it senses wheel slippage, it automatically directs power to the wheels with the most traction. Controlled through the combined efforts of an active transfer case, locking rear differential and 4-wheel disc antilock brakes, SmartTrak is automatic. You don't have to pull any levers or push any buttons.

**STANDARD FEATURES****SAFETY AND SECURITY**

Next Generation dual frontal air bags* • 4-wheel antilock brakes • All-speed traction control system • Automatic power door locks • Vehicle security system • Daytime running lamps with automatic headlamp control • Variable-intermittent wipers • Battery-rundown protection

POWERTRAIN

2.4-liter DOHC 4-cylinder engine (GX and GL) and 3.4-liter V6 engine (GLS) with 100,000-mile platinum-tipped spark plugs and 150,000-mile coolant[†] • Electronic 4-speed overdrive automatic transmission with 100,000-mile fluid[†] • Front-wheel drive

CHASSIS AND SUSPENSION

4-wheel independent suspension: strut-type with front aluminum lower control arms and rear "tri-link" semi-trailing arms, coil springs, gas-charged struts with deflected-disc valving and stabilizer bars • Power rack-and-pinion steering • Power 4-wheel disc brakes

DRIVER CONTROLS

Analog instrument cluster with tachometer and gauges for coolant temperature and fuel level • Electronic trip odometer and oil change monitor • Dash-mounted ignition and hazard switches • Center console with floor shifter and traction system on/off switch • 4-spoke steering wheel with TILT-Wheel adjustable column

SEATING AND TRIM

Reclining contour front bucket seats with side bolsters • Split-folding rear seatback • Storage: center console storage bin, driver's personal compartment, locking glove box, overhead storage bin, front and rear cupholders, and map pockets in front doors (GL and GLS) and front seatbacks

COMFORT AND CONVENIENCE

Air conditioning with rear-seat heat ducts • AM/FM stereo with extended-range sound system and separate AM and FM rear-window antennas • Reading lamps • Illuminated entry/exit system with theater dimming • Lighted visor vanity mirrors • Power trunk release

EXTERIOR

Faceted reflector lighting • Tinted glass with UV protection • Dual spring-loaded outside mirrors • 5-mph front and rear bumpers • Dent-resistant doors, fenders and hood • Gas-charged hood struts
